Rationale:

LSS Black Belts are normally full-time practitioners of a Lean Six Sigma Program, who leads big transformational improvement projects for the organization. This training is ideal for existing Green Belts who need to learn more on the advance Lean and DMAIC tools and processes, and will also eventually lead and coach Green Belts and Yellow Belts in LSS projects.

Course Overview:

Lean Six Sigma DMAIC course prepares participants to perform the role of a LSS Black Belt. The comprehensive curriculum covers everything within the Lean Six Sigma D-M-A-I-C body of knowledge required to successfully achieve Black Belt certifications and performance standards. This course is designed in a way that Lean Six Sigma Black Belt problem-solving tools, techniques and strategies are demonstrated throughout the course. This is a fifteen (15) days training course, that is spread out over four (4) weeks,

with a two (2) weeks break in-between, for the LSS Black Belt students to identify a Lean Six Sigma project in their respective organizations.

The course is completely participative in nature that will incorporate discussions, classroom instruction, and workshop exercises.
