**Rationale:**
This is the first stepping stone of being a Lean Six Sigma practitioner. This course is ideal for all employees of organizations implementing a Lean Six Sigma program, regardless on which department one works for. A Yellow Belt will be able to implement small process improvements by understanding the fundamentals of Lean and DMAIC process.

**Course Overview:**

The Lean Six Sigma Yellow Belt training is a 16-hour course focusing on the fundamental knowledge and skills necessary to identify and execute 6 sigma projects with the use of its principles, practices, tools, and approaches that will result to operational excellence. One of the primary aims of the program is to enable the participant to start up a LSS project in their respective organizations after course completion.

The course is completely participative in nature that will incorporate discussions, classroom instruction, and workshop exercises.

The Lean Six Sigma Yellow Belt training course is comprised of Five modules:

**Module 1: Introduction and Overview**
