

# 1st INTERNATIONAL BIOSENSING TECHNOLOGY WORKSHOP & CONFERENCE

“Emerging Medical Instrumentation and  
Engineering Focusing on the Next Generation  
Diagnostics and Therapeutics.”

Conference Topics include but not limited to:

- Biomedical devices innovation
- Personal health monitoring and safety
- Lab-on-a-chip, microfluidics, MEMS and  $\mu$ TAS
- Novel detection technologies
- Enzyme biosensors and Immunosensors
- Bio-imaging technologies
- Organism- and whole cell-based biosensors
- Printed biosensors and organic electronics

## September 19-21, 2016

Henry Sy, Sr. Hall, De La Salle University

### MANILA, PHILIPPINES

Call for Abstract Submission: July 10, 2016

Submission Deadline: August 10, 2016

Acceptance Notification: August 31, 2016

Workshop on Electrochemical Biosensors,  
Optical and Plasmonics Biosensors,  
and Microfluidics for Cell Study will be facilitated by  
**NANOBIO-ENGINEERING LABORATORY**  
(TAMIYA LABORATORY)  
OSAKA UNIVERSITY, JAPAN

For inquiries and registration please contact the secretariat:
